FANCY LEAVED CALADIUM

(READY IN JANUARY)

Fancy Leaved Caladium

THESE are grown for us on contract by one of the leading hybridizers of the world. Our list is composed of twelve of the best named sorts, covering a wide range of colors, which are difficult to describe accurately.

Wonderful effects can be produced in table or conservatory decorations with these beautifully marked tropical foliage plants. The bulbs should be started in damp moss, somewhat like Begonias, with plenty of bottom heat and an occasional dampening. Do not allow them to get chilled, and at all times grow them in a moderate heat.

MICHELL'S PLANT SPECIALTIES

Chrysanthemum Frutescens, "Mrs. F. Sander"

Chrysanthemum Frutescens **"Mrs. F. Sander"**

A great improvement over the old Paris Daisy or Marguerite. The flowers are of purest white and often measure 5 inches across. Equally good for bedding purposes or cut flowers; also fine for pot culture for winter blooming, producing a very large percentage of double flowers. Strong 3-inch pot plants. \$1.00 per dozen; per 100, \$8.00.

Matricaria "Little Gem"

One of the best hardy perennials for cut flower purposes, being literally smothered with large, button-like, pure white flowers, borne in sprays during the entire summer and autumn. These are wonderfully fine plants and should be planted liberally. They flower also on the greenhouse bench if planted in beds or along the edges; a carnation temperature suits them. Florists will find this plant a valuable acquisition to their collection of flowers for funeral design work in the summer and autumn. 2½-inch pot plants, \$1.00 per dozen; per 100, \$7.00.

"HELEN MICHELL"

The Wonderful Scarlet Bedding Geranium

Introduced by Us in 1914

"HELEN MICHELL" IS SEMI-DOUBLE, OF THE CLEAREST POSSIBLE SHADE OF SCARLET, IS EARLY IN BLOOM, AND FLOWERS VERY FREELY DURING THE ENTIRE SEASON

It grows compact, medium dwarf, with lustrous green foliage and throws up gigantic flower-heads very freely. We claim it to have the largest flower-heads of any of the Bedding Geraniums. The individual blooms frequently measure $2\frac{1}{2}$ inches across. It is a common occurrence that a single 4-inch pot plant shows four fully open gigantic flower heads, several half open and more in bud. For earliness and constancy of bloom it surpasses all other Geraniums. We further claim that **"Helen Michell" is the Best Commercial Geranium** in existence.

Please note we can take orders for this variety for delivery from February, 1917, on our early propagation being completely sold up.

PRICES TO THE FLORIST TRADE

From $2\frac{1}{4}$ -inch pots, 85c. per doz.; 25 for \$1.25; \$4.50 per 100; \$40.00 per 1000.

Hardy Primrose

HARDY PRIMROSES (For Winter Blooming)

The plants are in 4-inch pots, well established, and in flower should sell readily at from 35c. to 50c. each in bloom. They can be brought into heat at intervals which will prolong the period of supply; splendid for window decorations.

DOMESTIC WOOD ASHES—HARD WOOD—UNLEACHED NATURE'S PLANT FOOD

The present scarcity of Potash makes this a very important article with the florist. While we still handle Canadian Wood Ashes, many florists are demanding something lower in price. Through special arrangement we are able to offer these unleached ashes at very low price. They are rich in Potash and wood lime, which are very necessary fertilizers. Carnation, Rose and Chrysanthemum growers will find these of wonderful value. It is largely used for mixing with potting soil, or as a topdressing for benches. Apply at the rate of 50 lbs. per cubic yard of potting soil. On account of the close margin of profit at which we sell this, it being our desire to give customers the advantage of the low price, we cannot book orders for less than $\frac{1}{2}$ ton for Domestic Wood Ashes. We can, though, furnish smaller quantities of Canadian Hard Wood Ashes.

MICHELL'S KEYSTONE PLANT TUBS

MICHELL'S KEYSTONE PLANT TUBS

Plants, large or small, appear always to better advantage when planted in tubs instead of pots. They are easier handled because they are much lighter in weight; they are more attractive and bring a higher price. Tubs have welded hoops, except bottom hoop, which is flat (and neat handles, when desired, at extra prices, as mentioned below). Unlike pots, they do not break, nor do they require special packing when used in shipping. Made of white cedar, they are by far the *cheapest, neatest, lightest* and *best* florist tub put on the market. (**Prices subject to change.**)
